

Ankle Brachial Index Using a Handheld Doppler

(Click on the title to access the video)

This 8-minute video demonstrates how to do an Ankle Brachial Index (ABI) test, a non-invasive method to determine arterial blood flow to lower limb. Please note the video may take 1-2 minutes to download.

The video has been developed by the British Columbia Provincial Nursing Skin & Wound Committee and is posted on CLWK for your personal development; you can review it as often as you wish.

The CLWK site does not provide certificates of completion; if you need to have a record that you have watched this video, please access the video through the British Columbia LearningHub site or the Yukon Learning Management System site.
