

Basic Hand & Foot Nail - Nurses

(Click on the title to access the module)

As you work through this ~ 10-minute module you will learn:

- The role of basic nail care in a person's overall health & wellness.
- The anatomy and physiology of nails.
- The principles of basic nail care.
- Actions to take when there is a concern with a nail.
- The basic nail care tasks.
- The equipment & supplies needed for basic nail care.

The module has been developed by the British Columbia Provincial Nursing Skin & Wound and is posted on CLWK for your personal development; you can review it as often as you wish.

The CLWK site does not provide certificates of completion; if you need to have a record that you have completed this module, please access the module through the British Columbia LearningHub site or the Yukon Learning Management System.

Module navigation:

- Use the volume control button **A** to set the level of audio.
- If needed, the pause button **B** will put the module on hold.
- Use the Prev button **C** if you wish to revisit a previous screen.
- Use the Next button **D** to move to the next screen.
