

## [Application of Compression Therapy](#)

(Click on the title to access the module)

The key learning points in this 2-hour paper module are:

- Purpose of compression therapy.
- Precautions and contraindication of this therapy.
- Different types of compression wraps.
- How to prevent and treat adverse effects.
- How to transition from wraps to stockings/garments.
- How to support the client in their participation of this life-long therapy.

The module has been developed by the British Columbia Provincial Nursing Skin & Wound Committee and is posted on CLWK for your personal development; you can review it as often as you wish.

The CLWK site does not provide certificates of completion; if you need to have a record that you have completed this module, please access the module through the British Columbia LearningHub site or the Yukon Learning Management System site.
