

Triaging Burns/Treating Minor Burns

(Click on the title to access the module)

The key learning points in this 30-minute module are:

- The definition of burn injury vs burn wound.
- The initial assessment of the burn wound and when to triage the patient.
- The mechanism of injury as well as the extent and depth of the burn wound.
- The goals of treatment, management and special consideration of the minor burn wound.
- Resources for follow-up and patient teaching.

The module has been developed by the British Columbia Provincial Nursing Skin & Wound Committee and is posted on CLWK for your personal development; you can review it as often as you wish.

The CLWK site does not provide certificates of completion; if you need to have a record that you have completed this module, please access the module through the British Columbia LearningHub site or the Yukon Learning Management System site.
