

NPWT Level One – Monitor & Manage

(Click on the title to access the module)

The key learning points in this 30-minute module are:

- What is your role in monitoring and managing a NPWT system.
- How Negative Pressure Wound Therapy (NPWT) works.
- Why it is important to do monitor the NPWT system.
- How to do a Safety/Monitoring Check.
- How to manage NPWT adverse events.
- How to manage NPWT system issues.
- How to remove the NPWT dressing when the therapy has been discontinued/completed.
- How to manage the NPWT dressing in the event of a NPWT dressing or device failure.
- What is your role in facilitating a smooth transition to another care site/home.

The module has been developed by the British Columbia Provincial Nursing Skin & Wound and is posted on CLWK for your personal development; you can review it as often as you wish.

The CLWK site does not provide certificates of completion; if you need to have a record that you have completed this module, please access the module through the British Columbia LearningHub site or the Yukon Learning Management System site.
