

Product Information Sheet

Remedy Cleanse Shampoo & Body Wash	
Classification	Skin Care: Cleanser Rinse-Off
British Columbia Practice	<ul style="list-style-type: none"> The British Columbia Perinatal Services and the British Columbia Provincial Nursing Skin & Wound Committee have determined Remedy Cleanse Shampoo & Body Wash may be used for bathing neonates in: <ul style="list-style-type: none"> NICUs who have a corrected gestational age greater than 31 weeks + 6 days. Maternity/pediatric units who are less than 28 days in age.
Key Points	<ul style="list-style-type: none"> Remedy Clinical Cleanse Hydrating Shampoo and Body Wash is a pH-balanced (5.0-6.0), plant-derived moisturizing gel cleanser to be used with water for cleansing hair and body. May be used on intact, irritated or non-intact skin. Fragrance-free, tear-free, paraben-free, hypoallergenic, Chlorhexidine Gluconate (CHG) compatible. Sulfate-free therefore gel produces only a small amount of suds. Compatible with latex, nitrile, and vinyl gloves.
Indications	<ul style="list-style-type: none"> For all ages including neonates (see practice statement above) for: <ul style="list-style-type: none"> Shower or tub bathing. Hair cleansing. Perineal cleansing in the bath or shower. Removal of zinc-based products as part of the bath or shower.
Precautions	<ul style="list-style-type: none"> May be used for cleansing eyelids/lashes but avoid direct contact to the eye.
Contraindications	<ul style="list-style-type: none"> Do not use for clients with known sensitivity or allergy to product ingredients. Do not use for neonates who have a corrected gestational age of less than 31 weeks + 6 days. Do not use as a wound cleanser.
Formats & Sizes	Bottle <ul style="list-style-type: none"> 59mL 472mL 

Directions	Rationale / Key Points
Selection Select the size of bottle appropriate to the client situation, (e.g., for short stay consider the 59mL sized bottle). Label the bottle with the date and the client's name.	The bottle is for single-patient use only and is to be used within three years of opening.
Application For shower or tub bath, all ages except neonates (see below): <u>As a body wash:</u> <ul style="list-style-type: none"> Wet skin and apply a quarter size dab/dollop of gel onto a damp, warm cloth or directly onto skin. Massage into skin (gel will only produce a small amount of suds). Repeat until bath is completed. On average, 3-4 quarter-size dabs/dollops are needed for a complete bath. Rinse well and gently pat dry. Apply moisturizer as needed. 	Only a small amount of the gel is needed for cleansing or shampooing hair; adding more gel will not increase the suds/bubbles.

Product Information Sheet

Directions	Rationale / Key Points
<p>As a shampoo:</p> <ul style="list-style-type: none"> Wet the hair. Apply two quarter size dabs/dollops of gel onto hands. Massage into hair (gel will only produce a small amount of suds). Depending upon length and/or thickness of hair, additional gel may be needed. Rinse well. 	<p>Only a small amount of the gel is needed for cleansing or shampooing hair; adding more gel will not increase the suds/bubbles.</p>
<p>For a neonate's bath:</p> <ul style="list-style-type: none"> Wash infant's hair and body as per the neonatal unit's practice/procedure. Use a quarter size dab/dollop; gel will only produce a small amount of suds. Pat dry. Do not apply moisturizer. If needed, apply a silicone protectant, (e.g., Remedy Prevent to perineal area). 	<p>Only small amount of the gel is needed for cleansing; adding more gel will not increase the suds/bubbles.</p> <p>Due to the permeability of neonatal skin, minimize the use of skin moisturizers /protectants unless needed e.g., Incontinence Associated Dermatitis.</p>
<p>Removal of Zinc Cream as part of a shower/tub bath:</p> <ul style="list-style-type: none"> Apply directly on the zinc. Allow gel to soak in for 2-3 minutes. Gently wipe off top layer of zinc. Repeat if all layers of zinc are to be removed. Rinse the area well. 	<p>Gel needs time to soften the zinc layer to aid in removal.</p>
<p>Expected Outcomes</p>	
<p>Clean, moisturized skin and hair</p> <p>Product performs as expected.</p>	<p>If product does not perform as expected, notify NSWOC/Wound Clinician and then consider submitting a Supply Chain Product Concern Form.</p>
<p>For further information please contact NSWOC/Wound Clinician</p>
