

## Product Information Sheet

Directions	Rationale / Key Points
<p><b>Bathing for Neonates:</b></p> <ul style="list-style-type: none"> <li>• Use the foam cleanser to wash the infant’s hair and body as per usual neonatal unit’s practice/procedure for immersion or sponge bath.</li> <li>• Pat skin dry.</li> <li>• Do not apply moisturizer.</li> <li>• If needed, apply silicone protectant, (e.g., Remedy Protect to perineal area).</li> </ul>	<p>Due to the permeability of the neonatal skin, minimize the use of skin moisturizers /protectants unless needed, (e.g., Incontinence Associated Dermatitis).</p>
<p><b>Hair cleansing:</b></p> <ul style="list-style-type: none"> <li>• Apply to wet or dry hair.</li> <li>• Moisten all strands working it in gently.</li> <li>• Do not rinse.</li> <li>• Towel dry.</li> </ul>	<p>Product does not produce suds. Cleanser is a no-rinse product.</p>
<p><b>Perineal cleansing:</b> Gently remove as much of the feces as possible:</p> <ul style="list-style-type: none"> <li>• Moisten a washcloth with warm water. Use the palm of the hand to dispense 3-6 pumps of the cleanser on to the washcloth. More pumps can be used.</li> </ul> <p><u>Or</u></p> <ul style="list-style-type: none"> <li>• Pump directly onto perineal skin/soiling on skin/zinc barrier. For caked-on, dried soiled areas, allow the foam to soak in for 2-3 minutes to aid in cleansing.</li> <li>• Wipe gently and repeat as necessary.</li> <li>• Do not rinse the skin with water, pat dry.</li> <li>• Apply a thin layer of skin protectant or skin barrier.</li> </ul>	<p>Cleanser is a no-rinse product and leaves an invisible protective moisturizing film on the skin.</p>
<p><b>Removal of Zinc Cream:</b></p> <ul style="list-style-type: none"> <li>• Pump directly onto the zinc area.</li> <li>• Allow the foam to soak in for 2-3 minutes to aid in removing cream.</li> <li>• Wipe gently off the top layer of zinc and repeat if needed.</li> </ul>	
<p><b>Expected Outcomes</b></p>	
<p>Clean, moisturized skin. Product performs as expected.</p>	<p>If product does not perform as expected, notify NSWOC/Wound Clinician and then consider submitting a <a href="#">Supply Chain Product Concern Form</a>.</p>
