Directions	Rationale / Key Points
Selection	
Select the size of container appropriate to the client situation, (e.g., for short stay consider the 118 mL sized tube). Label the container with date and the client’s name.	The container is single-patient use only; once opened, the container is good for three years.
Preparation	
Cleanse skin (if required) and pat dry.	
Application	
Apply a <u>thin</u> layer of Remedy Moisturize and gently smooth into the skin (face, hands, body and feet) until the moisturizer is absorbed. Do not apply between the toes. Best applied to dampened skin after bath or shower. Socks and shoes are to be worn following application to the feet.	
Frequency of Application	
Daily to promote good skin health. Twice a day for arms and legs to prevent skin tears. Twice a day for treatment of dry skin.	
Expected Outcomes	
Skin is well-moisturized, healthy and intact. Product performs as expected.	If product does not perform as expected, notify NSWOC/Wound Clinician and then consider submitting a Supply Chain Product Concern Form .
