Directions	Rationale / Key Points
<b>Preparation</b>	
<p>Ensure lips and surrounding skin are clean prior to application.</p> <p>Remove the cap of the tube and turn the wheel on the bottom of the tube to the right to advance the column of moisturizer above the level of the top of the tube.</p>	<p>Tube is single-client use only.</p>
<b>Application</b>	
<p>Apply a light layer of the moisturizer to lips and if needed the immediate surrounding area.</p> <p>Excess moisturizer can be removed by gently dabbing area with tissue or cloth.</p> <p>Turn the wheel on the bottom of the tube to the left to return the column of moisturizer down below the level of the top of the tube. Reapply the cap to the tube.</p>	<p>Returning the column of moisturizer back inside the tube will ensure the moisturizer does not dry out.</p>
<b>Removal</b>	
<p>To remove all of the moisturizer, use a warm cloth and gently cleanse the lips and surrounding area.</p>	
<b>Frequency of Application</b>	
<p>Apply as needed.</p>	
<b>Expected Outcomes</b>	
<p>If used to prevent dry lips, the condition does not develop.</p> <p>If used as a treatment for dry to very dry lips, improvement is noted, or the condition resolves.</p> <p>Product performs as expected.</p>	<p>If product does not perform as expected, notify NSWOC/Wound Clinician and then consider submitting a <a href="#">Supply Chain Product Concern Form</a>.</p>
