

## How to Unblock/Enable Adobe Flash Player

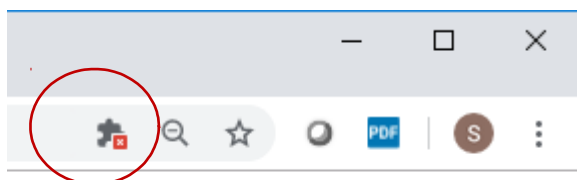

If you try to access one of these four modules:

- How Wound Heal
- Wound Assessment
- Wound Cleansing
- Wound Packing

And get this screen then you need to do a few steps to unblock/enable Adobe Flash Player

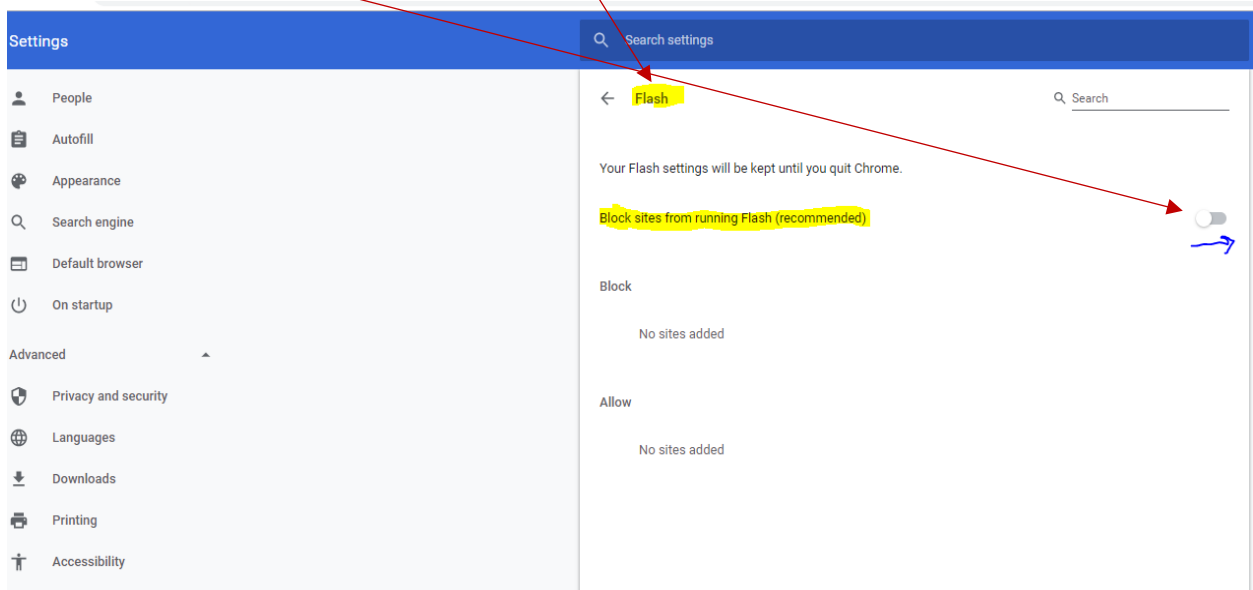

Look in the top right corner of your browser screen and see the 'Flash blocked;' icon

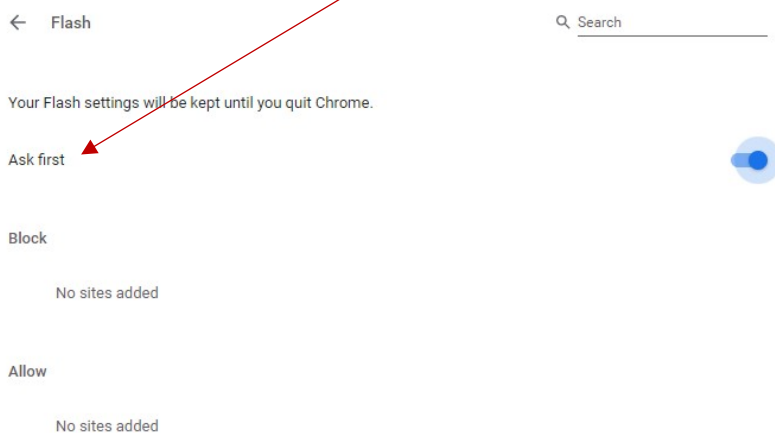

When you hover over this icon you will see the message 'Flash was blocked on this page'

Click on the icon and the little pop-up appears, click on the button labelled “Manage”

The ‘Settings’ screen opens with the “Flash” section showing on the right side of the screen. Click this button to unblock Flash

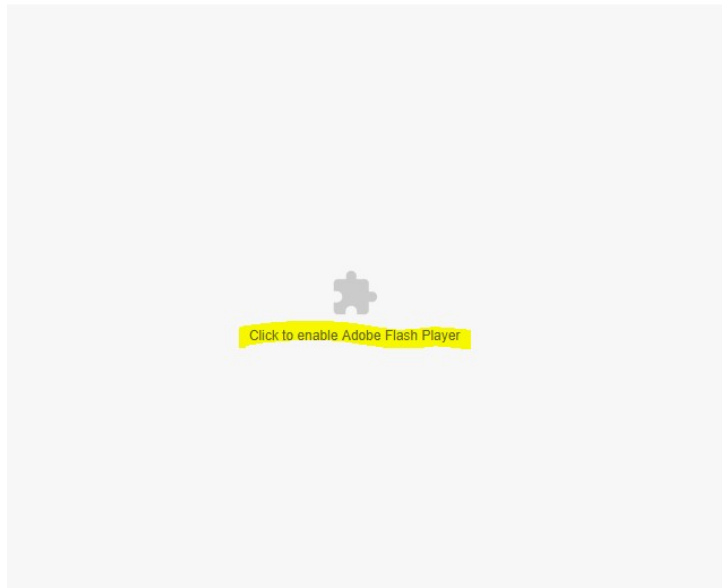

The system is now set up to ask you first before allowing Flash to run

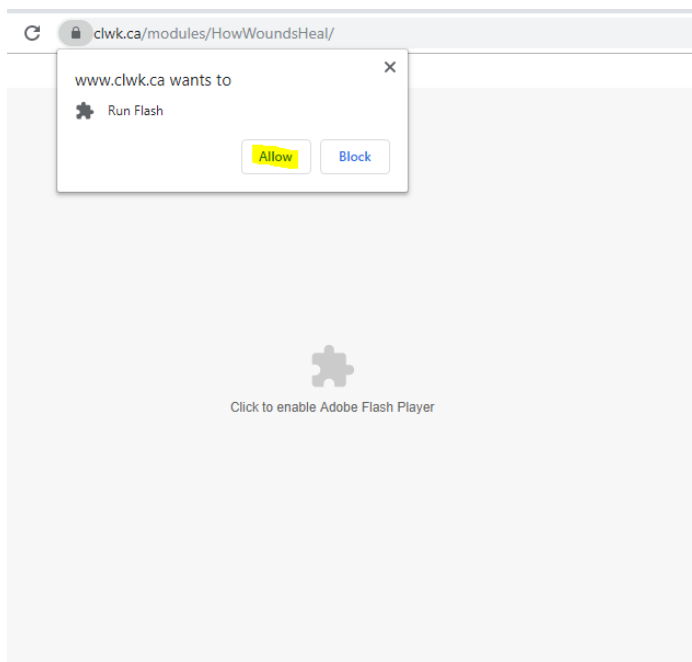

Depending upon your computer setting up you may have to unblock Flash each time you want to look at the elearning modules

Close out of Settings, now click anywhere within the grey box

And you will get the message box saying that CLWK want to run Flash and asking you if you want to allow this -- click on the "Allow" button.

Going forward, when you click on the elearning module(s) you may not have to do all the above steps, you may just see this message box and need to do the "Allow"
