

**Provincial Professional Practice Stream Wound Ostomy Continence
Document Update Notification of New, Revised, Deleted as of April 7th 2021**

Date	Document Type	Document <small>(click to access new document)</small>	Nature of Update
Mar 25, 2021	Product Information Sheet	Iodosorb	Revised: removed the precaution of the use of Iodosorb in conjunction with the administration of Sulphafurazoles (antibiotic) and Sulphonylureas (antidiabetic agents) as S&N states that this is not the case. Revised: S&N now states the use of Iodosorb, any format, is a precaution for clients with renal impairment (prior statement re: contraindication was an error).
Mar 24, 2021	Product Information Sheet	Prevena	Removed: Procedure for Prevena now in the Clinical Decision Support Tools Folder.
Mar 24, 2021	Product Information Sheet	PICO	Removed: Procedure for PICO now in the Clinical Decision Support Tools Folder.
Mar 24, 2021	Product Information Sheet	Povidone Iodine for Wound Care	Revised: bolded the 'dry eschar' wording to clarify that the solution is indicated for this type of wound.
Mar 24, 2021	Product Information Sheet	Tegaderm Absorbent Clear Acrylic	Revised: removed sacral shaped sizes and added two rectangle shaped (incisional) dressings.
